

SS-PTU75-SS

Pass Through Tray with
Window Intercom System and Sliding
Cursor

CONTACTA PASS THROUGH TRAY SYSTEMS

The SS-PTU75-SS is a pass through tray featuring a sliding cursor that allows items to be passed between the secure and public side of a security screen. The kit has surface speaker and microphone modules for both the staff and customer. With an integrated window intercom system, it allows for clear communication between staff and customers.
